

EEF Information Bulletin

May 2020 Edition

Dear Members,

We are currently reviewing, reconsidering, reimagining the way we can provide high-level quality discussions.

We look forward to meeting you again and we will revert to you with a reorganised calendar of events as soon as possible!

Stay healthy,

Pascale, Giuditta and Maud

On our members' side

A new Associate Member for the EEF

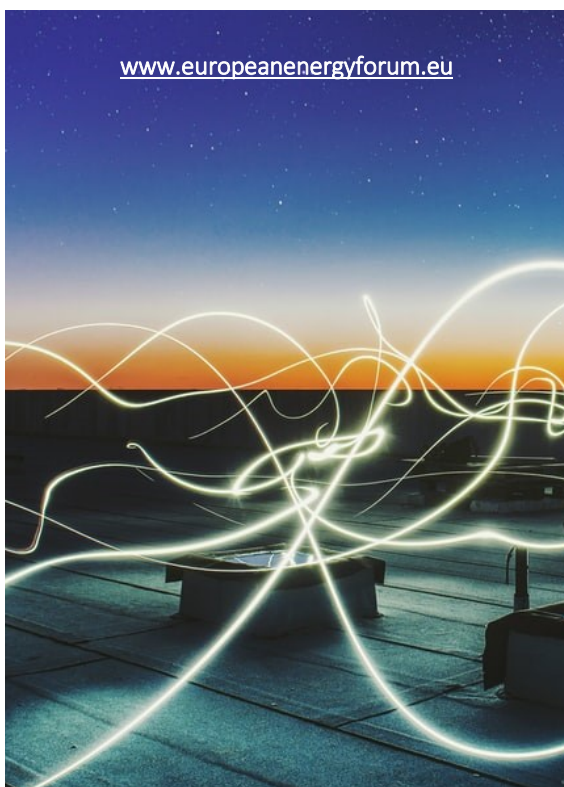

SolarPower Europe is the European trade association for solar power, established in 1985, and represents over 200 organisations active along the entire value chain, including leading module, inverter and equipment manufacturers, project developers, finance and O&M companies, research institutes and national solar and renewable associations. **Ms Walburga Hemetsberger** is the main representative of the association to the EEF. **She is Chief Executive Officer of SolarPower Europe** since February 2019 after nine years as Head of the EU Representation Office at VERBUND.

A new Associate Member for the EEF

The Norwegian Oil and Gas Association is an industry association for companies which conduct or are suppliers to oil and gas operations, offshore renewable energy generation and offshore mineral extraction in Norway. It has ca 120 members, many of which are European and other international companies. Engaging with EU stakeholders on energy issues is one of its priorities. **Director for international affairs, Mr Erling Kvadsheim**, will be the main representative to the EEF.

www.europeanenergyforum.eu

Gabrielle Lelievre, Communications and Events Assistant, has left the EEF to take up a new professional challenge.

For the last two years, she was in charge of the organization of EEF events as well as of the visual identity of the Forum.

We wish her all success in her new journey!
